

MUHAMMED NABHAN TV

Frontend Developer & Designer

mhdnabhan009@gmail.com+91 62386 92051 linkedin.com/in/muhammed-nabhan-tv github.com/nabhan009

Calicut, Kerala

PROFESSIONAL SUMMARY

Frontend Developer with hands-on experience building production-ready, responsive web applications using React, JavaScript (ES6+), and Tailwind CSS. Developed and deployed a complete e-commerce platform with real-world workflows including state management, routing, and performance optimization. Experienced in Git-based development, modular UI architecture, and frontend performance improvements. Actively expanding skills in Next.js, TypeScript, Three.js, and GSAP.

TECHNICAL SKILLS

Frontend:

HTML5, CSS3, JavaScript (ES6+), React, Redux, Tailwind CSS, TypeScript, Next.js, GSAP, Three.js

Tools & Technologies:

Git/GitHub, VS Code, REST API, npm, Vercel

PROFESSIONAL EXPERIENCE

Frontend Developer

Bridgeon, Calicut, Kerala

June 2025 – Present

- Cleared multiple technical screening assessments, demonstrating strong understanding of frontend fundamentals
- Built 5+ reusable UI modules using React and Tailwind CSS, improving layout consistency and development efficiency
- Created reusable components that reduced repeated UI code by ~30%
- Implemented Redux for centralized state handling, managing 50+ dynamic product and cart states
- Integrated REST-style APIs using mock JSON data to simulate backend-driven applications
- Participated in daily standups and sprint planning, contributing to feature discussions and issue resolution
- Maintained clean and traceable codebases using Git branching, pull requests, and code reviews

PROJECTS

Falconz - E-commerce Website

Live: [falconc.vercel.app](#)

Tech Stack: React, Redux, Tailwind CSS, React Router, Vercel

- Designed and developed a full-scale e-commerce application with 30+ products, categories, and filters
- Implemented shopping cart and checkout logic with real-time price calculation and quantity updates
- Used Redux to manage global state, reducing prop drilling and improving scalability
- Achieved 100% responsive design across mobile, tablet, and desktop devices
- Reduced initial load time by ~40% through code splitting and lazy loading
- Implemented form validation, error handling, and user feedback mechanisms
- Deployed using Vercel with continuous integration and zero-downtime updates

EDUCATION

Higher Secondary Education (Commerce – Mathematics)

MMVHSS School, Francis Road, Kozhikode, Kerala

Languages: English, Malayalam
